

# APPLICATION TO INCREASE ELECTRIC RATES

Waunakee Utilities filed an application with the Public Service Commission of Wisconsin (PSC) to increase electric rates on January 30, 2020. The adjustment has been requested due to inflationary increases in operation and maintenance expenses and costs associated with maintaining the reliability of the electric system. The last electric rate increase was approved in February 2011.

The utility is requesting an overall increase of 2.52%, or \$314,633. The final impact of the rate increase upon individual customers will not be known until the PSC issues an order; however, under the proposed rate structure, based on an average usage of 750 kilowatt-

hours (kWh), the typical residential customer's monthly bill would increase from \$84.27 per month to \$86.44 per month, an increase of \$2.17 or 2.6%.

The PSC will conduct a public hearing to discuss this matter at locations in Waunakee and Madison later in 2020. A notice of the hearing will be published after a date has been set. For more information, please contact the PSC at (608) 266-5481 and refer to the Waunakee Utilities electric rate application under Docket 6260-ER-106.

**Please contact the utility at (608) 849-8111 with questions.**

At Waunakee Utilities, we join forces with other local not-for-profit utilities through WPPI Energy to share resources and lower costs.
