

NIGHTTIME EV CHARGING PLAN

USE ELECTRICITY WISELY TO SAVE

WATCHING THE CLOCK CAN SAVE YOU MONEY, ESPECIALLY IF YOU OWN AN ELECTRIC VEHICLE.

Did you know that you may be able to save money simply by using electricity at the right time of day? Our new rate option enables you to take advantage of reduced electric rates during the middle of the night, but you don't need to own an EV to switch to this plan.

WHEN ARE OFF-PEAK HOURS?

With the Nighttime EV Charging Plan, off-peak hours are 12:00 a.m. to 5:00 a.m. everyday.

Nighttime EV Charging pricing gives you the opportunity to manage your own energy costs. At right is a comparison of electric rates under the Nighttime EV Charging Plan versus our standard rates.

HOW MUCH CAN YOU SAVE?

Typical EV owners can save an average of more than \$150 per year on the Nighttime EV Plan just by charging their EV at night. Think this may be the right plan for you? Compare all of our rate options using the comparison tool on MyAccount at:

THANK YOU

TO OUR DEDICATED LINE CREW

Our line workers brave the elements day and night to make sure we all have safe and reliable power. They live and work in the community and are quick to respond after a storm or unexpected power outage to get the system restored with as little downtime as possible. In honor of National Line Worker Appreciation Day April 18, we thank our line workers for all they do, today and every day.

APRIL 18 IS NATIONAL LINE WORKER APPRECIATION DAY.
